

LunaJoy

LunaJoy is more than just a virtual counseling and therapy platform. It's a movement aimed at empowering women by providing them with the tools they need to navigate life's challenges. With a strong focus on holistic and personalized care, [LunaJoy](#) is the brainchild of Dr. Shama Rathi and Dr. Sipra Laddha, who have dedicated their careers to the mental wellbeing of women. LunaJoy is their answer to the growing need for affordable and accessible mental health care for women everywhere.
